### Subject Selection

Selection of the most appropriate courses of study in the senior years is the most crucial issue regarding the academic success and wellbeing of each student at the College. Students must consider criteria such as their personal interest in a subject and their ability to achieve success as well as any intended career path when choosing courses. To assist in this selection process the detailed program above is available to ensure all students have the opportunity to make informed choices prior to commencing Year 11.

Some of the dates above may be subject to change due to any future impacts Covid-19 may have on key parts of the subject selection process. But the intention remains that DLS Cronulla will endeavour to provide a smooth transition for the families of our Feeder Schools into our College.

We wish you well in the choosing of your Subjects for 2021, we are here to assist in the ensuing months and we look forward to meeting all of our new students here at the College later in the year.

Yours faithfully

**Stephen Mahoney**
